

Amending an Electronic Death Record That Was Certified in OVERS

It may sometimes be necessary to make corrections to a death certificate after it has been registered at the State and assigned a State File Number (SFN).

Locate the record in OVERS that needs to be amended. After a record is registered, different options will appear under **Other Links**. To request an amendment to a record, select **Amendments** from the **Other Links** section of the **Death Registration Menu**.

The **Amendment Page** will appear. Choose the **Type** of amendment from the dropdown list. Your only option is **Medical**. Then click **Save**.

Cause of Death

NCHS Recommendations for Entry of Cause of Death

Enter the chain of events- diseases, injuries, or complications- that directly caused the death. DO NOT enter terminal events such as cardiac arrest, respiratory arrest or ventricular fibrillation without showing the etiology. DO NOT ABBREVIATE. DO NOT ENTER OLD AGE. Enter only one cause on a line. Add additional lines if necessary.

Sequentially list conditions, if any, leading to the cause listed on line a. Enter the UNDERLYING CAUSE (disease or injury that initiated the events resulting in death) LAST.

Immediate Cause (Final disease or condition resulting in death)

PART I Line a: 

Line b: 

Update the field on the page of the record you are changing.

The page will refresh and show the information that has changed in the Item in Error section. In this example, the Cause of Death Line B Description was changed. A message in red will appear at the top of the Amendment Page alerting that the amendment must be affirmed.

For amendments involving multiple pages select the additional pages to amend from the drop-down. If all the changes are complete and correct, click **Save**.
